

## V-NAILER

### CASING ASSEMBLY MACHINE

PRE-ASSEMBLING CASING SETS  
 INCREASES PREHUNG DOOR  
 PRODUCTION

#### AMP U-500

TOUCH-SCREEN  
 CONTROLLED; DRIVE AND  
 STACK V-NAILS IN UP TO 10  
 POSITIONS

"Pulling Power" V-Nails actually pull the corner joints together to make them stronger.

#### AMP U-600 MULTICHANNEL

DRAW FROM UP TO 5 VNAIL SIZES; DRIVE &  
 STACK VNAILS IN UP TO 10 POSITIONS.

Produce 3 casing hoops per minute

process	product	specs	features
	<p>The V-nailer creates a strong casing Mitre joint. Preassembled casing sets (or "hoops") relieve the bottleneck in a high production prehung door line. Two workers can apply 2 hoops in 30-45 seconds.</p>	<p>Material width 3/8" to 5"                      Material thickness up to 2"                      V-nail sizes*3,5,7,10,12,15mm                      *7mm, 10mm, 12mm nailing heads included with machine</p> <p>Program positions 10                      Electrical 110VAC                      Pneumatic 12CFM@110psi</p> <p>Approx.
