## MULTIPOINT MACHINE

FAST AND ACCURATE MACHINING FOR MULTIPOINT LOCK SYSTEMS, INCLUDING EUROGROOVE, MORTISE LOCK POCKETS, AND FUNCTION HOLES.

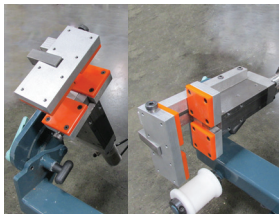

Machine for eurogroove in one easy pass.

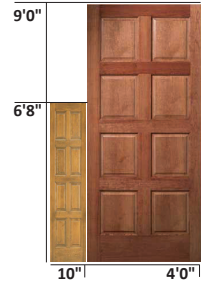

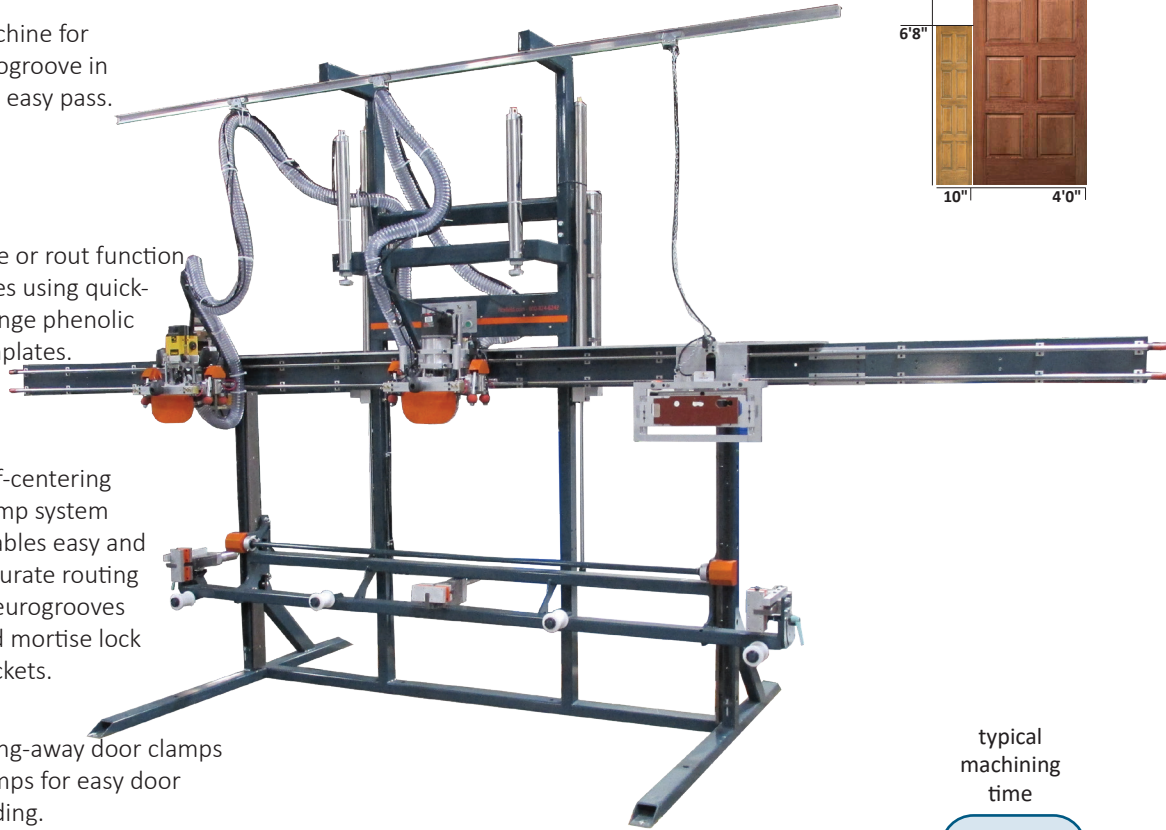

Bore or rout function holes using quick-change phenolic templates.

Self-centering clamp system enables easy and accurate routing of eurogrooves and mortise lock pockets.

Swing-away door clamps clamp for easy door loading.

typical machining time

**3-5**  
minutes/door
